Re: PCT Application PCT/US95/01103; Medical Diagnosis,  
Treatment and Imaging Systems; Our Ref. 20885

Dear Mr. Stern,

Further to our meeting of September 26, 1996, I enclose a new set of claims and a letter accompanying the new claims which sets forth our arguments concerning patentability, new matter and examinability (with respect to claims 37-39) of the claims. The claim set includes all the changes which we discussed at our meeting and other amendments as described in the accompanying letter.

I believe that you will now find that, in view of the amendments to the claims and the accompanying letter, you will be able to issue a positive IPER in this application. We would greatly appreciate your comments as to unity of invention as it would be viewed from the perspective of the EPO in the national stage. This will enable us to file European applications in an efficient manner.

Sincerely,

*Paul Fenster*
